ANNOUNCEMENT

Aug. 16, 2016

NGA, USGS seek applicants for partnerships in Centers of Academic Excellence in Geospatial Sciences

The National Geospatial-Intelligence Agency and U.S. Geological Survey Centers of Academic Excellence in Geospatial Sciences invite you to join them as partners in their efforts to support the nation's geospatial science needs and find answers to GS challenges. NGA and USGS are accepting applications through Feb. 15.

What is the NGA/USGS CAE GS?

The CAE GS is an alliance between NGA and USGS, created to build long-term partnerships with America's academic community in support of the nation's GS needs and challenges

Who is eligible to apply?

The CAE GS program is open to all regionally accredited two-year and four-year colleges and graduate level universities with curriculum to support one of the three designations. The three designation areas are described in the application documentation accessible on the All Partners Access Network site listed below. Institutions must hold current regional and/or national accreditation as outlined by the Department of Education (<http://ope.ed.gov/accreditation/>).

How do institutions apply?

Applicant institutions are requested to visit the All Partners Access Network at <https://wss.apan.org/nga/NGA-USGS-CAE/default.aspx> to download the 2017 NGA/USGS CAE GS Application form and associated application documents.

What if I have questions?

Customer support for application questions is available by emailing your question to NGA_CAE@nga.mil. Information about The Centers of Academic Excellence for Geospatial Sciences can be found by visiting NGA website at www.nga.mil or USGS website at www.usgs.gov, key word search CAE GS.

###

About NGA

NGA delivers world-class geospatial intelligence that provides a decisive advantage to policymakers, warfighters, intelligence professionals and first responders.

NGA is a unique combination of intelligence agency and combat support agency. It is the world leader in timely, relevant, accurate and actionable geospatial intelligence. NGA enables the U.S.
