

NGA NATIONAL GEOSPATIAL-INTELLIGENCE AGENCY

Ben Foster **Deputy Division Chief for Capabilities, CIO-T** **Product Manager, Mobile Products, GEOINT Services**

Ben Foster is a veteran Intelligence Analyst with the Army and has worked over 15 years in the Intelligence Community, either as a contractor, military member, or a civilian. He has worked across industry lines as a technical expert in geospatial analysis and remote sensing. He is currently the Deputy Division Chief for Capabilities and the Product Manager for NGA's Mobile Product Line as part of the GEOINT Services construct, changing the way NGA develops, acquires, and operates technology.

As the lead for Mobile Products, he lead teams of developers building mission relevant mobile applications as well as leading the team that develops NGA's mobile centric distribution platform, the GEOINT App Store.
