

NATIONAL GEOSPATIAL-INTELLIGENCE AGENCY

Know the Earth... Show the way... Understand the world

NGA Mentor-Protégé Program Protégé Capabilities 2002 to 2012

2012 MENTOR-PROTÉGÉ AGREEMENTS

Science Applications International Corporation (SAIC) / Global Technology Solutions, Inc.

- Global Technology Solutions (GTS) is headquartered in Brentwood, MO
- CAGE Code: 1U0K3 Website: www.global-techsolutions.com Email: See website
- Type: Small Disadvantaged Business and Service Disabled Veteran Owned
- Capabilities: Information Technology, telecommunication services, and product distribution. Technical services, network integration, program support, value-added distribution, and program/project management.
- Technology Transfer: 1) The migration of GeoRover to mobile devices gives GTS the capability to compete in the GIS environment. SAIC's GeoRover Mobile software solution combines powerful desktop capabilities with the flexibility of mobile devices to provide GIS on both platforms. 2) The migration of Percept 3D to connect essential business information with real-world infrastructure and properties data. Percept is a simple map-based web-driven view into facilities; allowing monitoring and management of day-to-day activities and the development of continuity and crisis-response plans.
- Benefits to NGA: The GeoRover and Percept 3D will enable GTS to support SAIC at NGA as an end-to-end security provider in order to meet NGA's need for GEOINT and visualization capabilities.
- Federal Clients: Federal Aviation Administration, USAF, US Army, US Navy, Dept of Homeland Security, Dept of Defense, Dept of Justice, US Secret Service and Bureau of Alcohol, Tobacco, Firearms & Explosives
- Status: Active

Science Applications International Corporation (SAIC)/Snell Enterprises, Inc.

- Snell Enterprises, Inc. (SEI) is headquartered in Columbia, MD
- CAGE Code: 0LN28 Website: www.snellinc.com Email: See website
- Type: Small Disadvantaged Business
- Capabilities: IT Program/Project Management, Cyber Security, Information Assurance, Software Application Development, Web Services, Network/Systems Administration, Secure Facility Design, Construction, and Renovation, Real Estate Acquisition, Planning and Development, Facilities Management and Communications and Marketing.
- Technology Transfer: 1) Cyber Security including the latest ISO and DOD standards and tools for securing networks and instruction on identifying threats to network security through effective real-time monitoring, analysis and penetration testing. 2) The Percept 3-D geospatial solution which allows two-dimensional data to be depicted in a three-dimensional format.
- Benefits to NGA: Access to a capable, cost competitive prime contractor and long-term industry partner providing resources for continued DOD and Warfighter mission success.
- Federal Clients: US Navy, Defense Security Service, Dept of State, Dept of Defense and General Services Administration
- Status: Active

Computer Sciences Corporation (CSC) / Strategic Operational Solutions

- Strategic Operational Solutions (STOPSO) is headquartered in Vienna, VA
- CAGE Code: 4LQK3 Website: www.stopso.com Email: info@stopso.com
- Type: Service Disabled Veteran Owned, Small Disadvantaged Business, 8A Program Participant
- Capabilities: IT strategy and management consulting
- Technology Transfer: CSC will impart its expertise, including subject matter expert support, development and planning tools, quality assurance oversight, and technology transfer processes. This will facilitate STOPSO's tailoring and development of capabilities that meet DOD requirements and implement them for NGA. This includes applying proven biometrics-based Identity Management technologies to support NGA requirements in the areas of: access control, IT, IA/information security, hardware development, tracking and processing, forward deployment of technology, and horizontal integration. This support will remediate current deficiencies and address evolving or emerging challenges to NGA and constituent communities.
- Benefits to NGA: Geospatial Identity Management and application of biometric technologies will increase the range of expertise and the value of contribution to a number of NGA mission areas, predominantly mobility applications.
- Federal Clients: US Navy, US Army, Dept of Defense and the Dept of Homeland Security.
- Status: Active

2011 MENTOR-PROTÉGÉ AGREEMENTS

CTSC / Global Consulting International

- Global Consulting International(GCI)is headquartered in Salt Lake City, UT
- CAGE Code: 4LC23 Website: www.gci-usa.com Email: Sales@GCI-USA.com
- Type: Small Disadvantaged Business; (8A, expires 09/05/2016)
- Capabilities: Information Technology, Advisory and Assistance Staffing (A&AS) Staffing Support, Medical Staff Augmentation, Logistics and Administrative Support, Life Cycle Management and Sustainment, DMSMS and Supply Chain Problem Solving, Project and Program Management, Database Management and Administration and Custom Software Development.
- Technology Transfer: Information technology, Information Assurance and Information Security. High end systems and hardware development and GIS support. CTSC will provide training on Environmental Systems Research Institute (ESRI) software and GIS information systems capability as well as assist GCI in integrating the provided training with current knowledge, experience and proven performance.
- Benefits to NGA: Use of proven information technology services provider with expert leadership and reach back capability that can help develop and improve technology used to support the warfighter.
- Federal Clients: US Air Force, US Army, US Navy, US Marine Corps and NASA
- Status: Active

Harris Corporation / Spatial Data Integrations, Inc.

- Spatial Data Integrations, Inc. (SDI) is headquartered in Louisville, KY
- CAGE Code: 02JU3 Website: www.sdimaps.com Email: info@sdimaps.com
- Type: Woman-Owned Small Business
- Capabilities: Application Development, Asset Management, Database Design, Emergency Response, GeoINT, Navigation Safety and Systems Integration.
- Technology Transfer: Harris will mentor SDI to achieve enhanced data quality and reduced production timelines through the provision of the Harris developed tool FeatureSCOPE. Additionally, Harris proposes to mentor SDI staff in the fundamentals of remote sensing, photogrammetry and image processing, enabling SDI to perform their own imagery processing work in the future upon which to perform feature extraction.
- Benefits to NGA: The provision of Harris' custom tool, user training and technical assistance to SDI which will be applied to actual NGA image processing and feature extraction services providing better data quality to NGA in addition to compressing timelines.
- Federal Clients: US Army Corps of Engineers
- Status: Graduated on 10/5/2012

HP Enterprise Services, LLC / Barrister Global Services Network, Inc.

- Barrister Global Services Network, Inc. (Barrister) is headquartered in Hammond, LA
- CAGE Code: 6V635 Website: www.barrister.com Email: Sales@barrister.com
- Type: Small Disadvantaged Business; HUBZone
- Capabilities: Break/Fix Maintenance, Call Center, Deployment, Installation, Help Desk, Network Operations, Disaster Recovery and Storage Solutions.

- Technology Transfer: Technical and Infrastructure Enhancement specifically training and certification in support of Barrister's infrastructure through the development of the following resources 1) a top-secret SCI cleared facility, 2) customized project management software tool, specifically created for both NGA and the intelligence community collectively and 3) a lab inside the top-secret SCI cleared facility, dedicated to training Barrister's engineers on high-end enterprise equipment.
- Benefits to NGA: The Clearview software project management tool designed for NGA which provides a system of processes to fuse and manage data sources from multiple producers at all required security levels. Clearview is a software application that exemplifies NGA's mission to build a responsive IT infrastructure to promote transparency and information sharing in a multi-intelligence environment.
- Federal Clients: Dept of Veterans Affairs, Social Security Administration, Dept of Justice, National Archives, Federal Aviation Administration and US Forest Services
- Status: Active

HP Enterprise Services, LLC / Emagine IT

- Emagine IT is headquartered in Washington, DC
- CAGE Code: 30NG5 Website: www.eit2.com Email: See website
- Type: Small Disadvantaged Business; (8A, exp 11/14/2014)
- Capabilities: Business Process Consulting, Cloud Computing and Virtualization, Infrastructure Support, Application Support of SOA and CRM, Management and Quality Assurance and Security Services.
- Technology Transfer: Technical and Infrastructure Enhancements specifically training and certification of Emagine IT through use of internal subject matter experts and external resources such as a Historically Black College or University.
- Benefits to NGA: A dedicated lab used to provide proof of concepts, demonstrations, application/database testing and development to NGA for existing, new and emerging technologies that will provide efficiencies and cost savings allowing NGA to make better informed decision on GEOINT analysis of imagery and geospatial data and information.
- Federal Clients: Bureau of Alcohol, Tobacco, Firearms & Explosives, Alcohol and Tobacco Tax and Trade Bureau, Food and Drug Administration, Dept of Health & Human Services, National Institutes of Health, Federal Bureau of Investigation, Dept of Homeland Security and the US Marshals Service
- Status: Active

HP Enterprise Services, LLC / Superlative Technologies, Inc.

- Superlative Technologies, Inc. (SuprTEK) is headquartered in Ashburn, VA
- CAGE Code: 1DQD4 Website: www.suprtek.com Email: Info@SuprTEK.com
- Type: Small Disadvantaged Business
- Capabilities: Strategic Business and Innovation, Information Security and Assurance, Solution Engineering and Delivery, Information Technology Operations, Healthcare Information Technology, Service Center and Integrated Services
- Technology Transfer: N/A (NGA took over this contract from DISA's Mentor-Protégé Program)
- Benefits to NGA: Obtaining access to an innovative yet stable small disadvantaged business with highly competitive indirect rates and a success record with other federal clients. Enhancement of protégé's marketing skills to build position among providers and consumers of data storage, virtualization and enterprise servers. Mentorship and

support on strategies for product development, marketing and commercialization for Small Business Innovative Research (SBIR) contracts.

- Federal Clients: Office of the Secretary of Defense, Intelligence Community, US Army, US Navy, US Air Force, Environmental Protection Agency, Dept of Justice, Dept of Homeland Security, Dept of Housing & Urban Development, Dept of Interior and National Park Services
- Status: Graduated on 08/31/2012

IBM / BCT LLC

- BCT LLC (BCT) is headquartered in Annapolis Junction, MD
- CAGE Code: 4JR11 Website: www.bct-llc.com Email: Info@BCT-LLC.com
- Type: Woman-Owned Small Business
- Capabilities: Acquisition Planning & Development Sourcing, Contract Formulation, Customer Relationship Management, Configuration Management, Service Level Requirements & Agreement Development, Operations Research, Metrics Development, Trend Analysis and Performance Measurement, Sourcing, Consulting and Step-By-Step Instructions & Training. Program Management, Life Cycle Logistics & Support and Construction Engineering and Management
- Technology Transfer: Blade Center, Rational Appscan to increase and support Cyber Security practices
- Benefits to NGA: To bridge the gaps between acquisition management, technology development and the tools and components that offer a robust solution space. The goal is to simplify the customer's prioritization and decision process by providing increased transparency to the mission-critical factors that are often buried in the details of complex acquisition programs.
- Federal Clients: Intelligence Community
- Status: Active

IBM / Provista

- Provista is headquartered in Fremont, CA
- CAGE Code: 1SPN2 Website: www.provista.com Email: See website
- Type: Small Disadvantaged Business, Woman-Owned
- Capabilities: Asset Management and Evidence Management
- Technology Transfer: IBM facilitates developing, planning, contracting and teaming with the appropriate IBM segments including access to marketing personnel for assistance in enhancing marketing opportunities and assisting and supporting the development of enhanced and structured bid decision models and proposal process. This assistance will consist of activities like strategic innovation planning, preparation of marketing support materials, client identification and participation in training for meets and presentations.
- Benefits to NGA: A holistic view of current property ownership, stewardship, location and status enabling visibility into the entire asset lifecycle. Higher asset performance and mission readiness, better management of risk and compliance with government, environmental and safety regulations. Improved accountability and governance through increased visibility and control of assets.
- Federal Clients: NASA, US Air Force, US Army, US Coast Guard, Defense Contract Management Agency, Dept of Homeland Security, Defense Logistics Agency, Dept of Interior, Environmental Protection Agency, Federal Aviation Administration, General

Services Administration, Internal Revenue Service, US Marshals Service, US Navy, Office of Personnel Management and Dept of Treasury.

- Status: Active

Raytheon Intelligence and Information Systems (Raytheon IIS) / 21st Century Technologies

- 21st Century Technologies (21CT) headquartered in Austin, TX
- CAGE Code:03BQ2 Website: www.21technologies.com Email: info@21technologies.com
- Type: Small Disadvantaged Business (8A, exp 01/28/2018)
- Capabilities: Cyber Security, Intelligence, Investigations and Fraud Prevention
- Technology Transfer: Service Oriented Architecture, Signal Intelligence, Information Fusion, Cyber Network Metadata Analysis, Cyber Attack Analysis, Distributed Computing, Risk Analysis and Inference Under Uncertainty
- Benefits to NGA: 21CT intellectual property portfolio consisting of five issued patents and four patents pending in the areas of cyber security, intrusion detection using graph-matching, anomaly detection, pattern detection, automated group detection, advanced graph analytics and high performance graph pattern search which will prove beneficial to all DOD organizations.
- Federal Clients: Dept of Defense, US Army, US Navy, US Air Force, US Marine Corps and Dept of Homeland Security
- Status: Active

Raytheon Intelligence and Information Systems (Raytheon IIS) / Endeavor Systems

- Endeavor Systems (Endeavor) is headquartered in McLean, VA
- CAGE Code: 3C925 Website: www.endeavorsystems.com Email: info@endeavorsystems.com
- Type: Small Disadvantaged Business, Woman-Owned (8A, exp 06/24/2012)
- Capabilities: IT Security Governance, Security Operation and Enterprise IT Solutions
- Technology Transfer: Endeavor will be included in Raytheon's Cyber Professional Learning Program, a 4-month program which provides advanced technical development assistance in Information Operations/Information Assurance capabilities. This technical development assistance will provide Endeavor with a strong foundation for continuing their development as a provider of secure IT solutions.
- Benefits to NGA: With Raytheon's assistance in maximizing Endeavor's innovative potential and expanding its reach and capabilities, DOD and NGA will gain increased access to a company with a proven track record enhancing our nation's warfighting capabilities on the cyber front.
- Federal Clients: Dept of Homeland Security, National Security Agency, Federal Aviation Administration, Dept of Treasury, Federal Deposit Insurance Corporation, Dept of Education, Federal Student Aid, Environmental Protection Agency, Court Services & Offender Supervision Agency, US Air Force and US Army
- Status: Active

Science Applications International Corporation (SAIC) / Cambridge International Systems, Inc.

- Cambridge International Systems, Inc. (Cambridge) is headquartered in Arlington, VA
- CAGE Code: 1P0S1 Website: www.cbridge.org Email: see website

- Type: Small Disadvantaged Business, Women-Owned, Veteran-Owned, Service Disabled Veteran-Owned
- Capabilities: Creating, implementing and operating communication surveillance, intelligence, security, information technology and training solutions.
- Technology Transfer: Two technology transfer areas 1) Information Assurance – SAIC provides Cambridge with new capability in the areas of communication security, infrastructure security, operational security and 2) GIS support via geospatial production tools - to enhance the integrative elements of Cambridge's existing fusion systems technology application.
- Benefits to NGA: Flexible, entrepreneurial, industry partner that has designed, implemented and operated intelligence fusion, communication and surveillance systems in remote, high-risk location but with reach-back capacity to CONUS or regional hubs.
- Federal Clients: Every Military Service, the Combatant Commands, Dept of Homeland Security and the Intelligence Community
- Status: Active

Science Applications International Corporation (SAIC) / International Underwater Explorations

- International Underwater Explorations (IUE) is headquartered in Wailuku, HI
- CAGE Code: 5DVV1 Website: www.iuetech.com Email: info@iuetech.com
- Type: HUBZone
- Capabilities: GIS Solutions & Tools
- Technology Transfer: SAIC's patented patching technology that allows efficient updates to data transmissions and is used today for NGA's safety of navigation mission and training in other areas important to the geospatial mission. Other areas include Information Technology, Information Security and GIS/Remote Sensing.
- Benefits to NGA: IUE's strong capabilities in GIS and web service specific to NGA data sets.
- Federal Clients: None
- Status: Active

TASC, Inc / Government Contract Solutions

- Government Contract Solutions (GCS) is headquartered in McLean, VA
- CAGE Code: 1F9X3 Website: www.gcsinfo.com Email: info@gcsinfo.com
- Type: Woman-Owned Small Business
- Capabilities: Acquisition Lifecycle Management, Contract Support, Performance Improvement and Program Management
- Technology Transfer: Technical abilities and methodologies to increase corporate skills and expertise in the areas of information technology enhancement, advanced architectures (e.g. cloud computing and cross-domain solutions), assistance with processes, tools, best practices for IT project management and facility improvements, as identified in the needs assessment.
- Benefits to NGA: After completion of the development assistance program, GCS will be in a better position to provide a more robust solution in an agile acquisition environment using proven methodologies and processes to increase efficiencies, improve quality and reduce cost, especially as these services directly relate to support the information and intelligence infrastructure needed to support our warfighters in the field
- Federal Clients: Administrative Office of the US Courts, Dept of Agriculture, US Army, Dept of Commerce, Dept of Energy, Environmental Protection Agency, General Services

Administration, Dept of Health and Human Services, Dept of Homeland Security, Dept of the Interior, Dept of Justice, US Marine Corps, US Marshals Service, Dept of Transportation, Dept of Treasury and Dept of Veterans Affairs

- Status: Active

Tec-Masters, Inc / Entys, Inc.

- Entys, Inc. is headquartered in Irving, TX
- CAGE Code: 491X6 Website: www.entys.com Email: info@entys.com
- Type: Small Disadvantaged Business
- Capabilities: Site Evaluation, Program and Project Management, Systems Integration, Infrastructure Support, Application Integration, CAD Design & Translations, Connector Development, Custom Software Development, Implementation & Application Upgrades, Staff Augmentation and Contract Maintenance Support
- Technology Transfer: Data management application development in a DOD architecture framework. Information assurance, security and horizontal integration and modeling and simulation
- Benefits to NGA: A resource for complex data management, large enterprise application integrations, cloud computing, web-based technologies, managing all forms of imaging data (2D & 3D) and data mining.
- Federal Clients: None
- Status: Active

Thomas & Herbert Consulting, Inc. / Dependable Global Solutions

- Dependable Global Solutions (DGS) is headquartered in Arlington, VA
- CAGE Code: 4JME7 Website: www.us-dgs.com Email: See website
- Type: Small Disadvantaged Business, Minority-Owned; (8A, exp 09/18/2016)
- Capabilities: Intelligence Operations & Analysis, IT Security and Mission Assurance
- Technology Transfer: Cyber Security tools and technologies that support the following: security assessments, disaster recovery, continuity of operations planning, biometrics and identity management, and performing ethical hacking for enterprise information systems, organizational networks and resources to identify, mitigate and manage security risks.
- Benefits to NGA: Assisting to develop a highly skilled 8A Small Disadvantaged Business to safeguard and protect critical network systems, data and applications of NGA and the DOD.
- Federal Clients: Dept of Defense, Dept of Homeland Security and the Intelligence Community
- Status: Active

Thomas & Herbert Consulting, Inc. / Drayton, Drayton and Lamar

- Drayton, Drayton and Lamar (DDL) is headquartered in Alexandria, VA
- CAGE Code: 41FV9 Website: www.ddlinc.com Email: See website
- Type: Service-Disabled Veteran-Owned Small Business
- Capabilities: Database Solutions, Help Desk / Call Center Services, Network Solutions, Program Management, Quality Management, Software Development and Maintenance, Systems Integration and Support and Web Services

- Technology Transfer: Cyber Security tools and technologies that support the following: security assessments, disaster recovery, continuity of operations planning, biometrics and identity management, and performing ethical hacking for enterprise information systems, organizational networks and resources to identify, mitigate and manage security risks.
- Benefits to NGA: Assisting to develop a highly skilled company to safeguard and protect critical network systems, data and applications of NGA and the DOD.
- Federal Clients: Bureau of Alcohol, Tobacco, Firearms and Explosives, Bureau of Prisons, Centers of Disease Control, Dept of Defense, Dept of Homeland Security, Dept of Housing and Urban Development, Dept of Justice, Dept of Veterans Affairs, Environmental Protection Agency, US Air Force and US Army
- Status: Active

Thomas & Herbert Consulting, Inc. / MASAI Technologies Corp

- MASAI Technologies Corp (MTC) is headquartered in Oak Park, MI
- CAGE Code: 1KULO Website: www.masai-tech.com Email: ClientSol@masai-tech.com
- Type: Small Disadvantaged Business, HUBZone
- Capabilities: Strategic Consulting, Business System Integration and Application Services, Technology Solutions and Managed Services
- Technology Transfer: Advanced Level Knowledge and Certification in SAP Solutions (Security Management, Human Capital Management, Customer Relationship Management, Financial Management, Application Lifecycle Management, Information Data Management, Business Intelligence and Process Integration). Security Management and Cloud computing to capitalize on fulfilling requirements of the Warfighter.
- Benefits to NGA: Technical and infrastructure enhancement specifically MTC training and certification through use of internal subject matter experts and external resources. Additionally, NGA benefits by helping to develop a highly skilled small HUBZone company capable of integration of a SAP business process platform providing an agile IT architecture that meets the data, synchronization and consistency needs of NGA.
- Federal Clients: US Army, US Air Force, Defense Logistics Agency and the Intelligence Community
- Status: Active

Thomas & Herbert Consulting, Inc. / R3 Government Solutions

- R3 Government Solutions (R3) is headquartered in McLean, VA
- CAGE Code: 5KUM1 Website: www.r3consulting.com Email: dschilder@r3consulting.com
- Type: Service-Disabled, Veteran-Owned Small Business
- Capabilities: Enterprise Technology Integration, Human Capital Management, Business Process Improvement and Performance Excellence
- Technology Transfer: Cyber Security tools and technologies that support the following: security assessments, disaster recovery, continuity of operations planning, biometrics and identity management, and performing ethical hacking for enterprise information systems, organizational networks and resources to identify, mitigate and manage security risks.

- Benefits to NGA: Building the capabilities of a small rapidly growing small business recognized by Federal government leadership for its ability to provide exceptional talent to solve the government's most complex problems.
- Federal Clients: Defense Intelligence Agency, Dept of Defense, Dept of Homeland Security, Dept of Housing & Urban Development, NASA and the Dept of Veterans Affairs
- Status: Active

Thomas & Herbert Consulting, Inc. / TMI Solutions

- TMI Solutions (TMI) is headquartered in Lanham, MD
- CAGE Code: 1UNC7 Website: www.tmi-solutions.com Email: info@tmi-solutions.com
- Type: Small Disadvantaged Business, Veteran-Owned; (8A exp. 09/24/2012)
- Capabilities: Management Consulting, Technology, Data Management and Information Security
- Technology Transfer: Cyber Security tools and technologies that support the following: security assessments, disaster recovery, continuity of operations planning, biometrics and identity management, and performing ethical hacking for enterprise information systems, organizational networks and resources to identify, mitigate and manage security risks.
- Benefits to NGA: Helping to develop a highly skilled 8A small disadvantage business and veteran-owned company to help safeguard and protect critical network systems, data, applications of NGA and the DOD.
- Federal Clients: Dept of Treasury, Dept of Labor, Social Security Administration, Centers for Medicare & Medicaid Services
- Status: Active

2010 MENTOR-PROTÉGÉ AGREEMENTS

Science Applications International Corporation/Computer World Services, Inc.

- Computer World Services, Inc. (CWS) is headquartered in Washington DC
- CAGE Code: 0P8H9 Website: www.cwsc.com Email: See Website
- Type: Small Disadvantaged Business; HUBZone (Certified 07/06/2004)
- Capabilities: IT Program and Project Management, Health IT, WAN/LAN and Wireless Network Operations, Engineering Management, Service Desk, Circuit Provisioning, Engineering and Implementation, Web Development.
- Technology Transfer: N/A (NGA took over this contract from DISA's Mentor-Protégé Program)
- Benefits to NGA: CWS core competencies in Network Defense and Information Assurance supporting NGA's mission requirements.
- Federal Clients: Office of the Secretary of Defense, Defense Information Systems Agency, US Air Force, Dept of Homeland Security
- Status: Graduated on 04/30/2012

SAIC / Vector Planning & Services, Inc.

- Vector Planning & Services, Inc.(VPSI)is headquartered in Chantilly, VA
- CAGE Code: 1YFS1 Website: www.myvpsi.com Email: See Website
- Type: Small Disadvantaged Business (exp 09/21/2013)
- Capabilities: Information Technology Solutions, Systems Engineering, Information Assurance, Program Management, Telecommunications and Network Services.
- Technology Transfer: N/A (NGA took over this contract from DISA's Mentor-Protégé Program)
- Benefits to NGA: The Integrated Product Control System (IPCS) technology gives VPSI a niche product/solution to manage large IDIQ contracts. IPCS is a web-based contract and task order management system that helps to facilitate business processes for task order initiation and approval, funding and cost expenditure management, report generation, milestones and deliverables tracking and subcontractor invoicing.
- Federal Clients: Defense Information Systems Agency, US Navy, US Air Force, US Army, US Marine Corps and Federal Aviation Administration.
- Status: Graduated on 05/27/2011

IBM / Collins Consulting

- Collins Consulting (Collins) is headquartered in Schaumburg, IL
- CAGE Code: 1P2X4 Website: www.colcon.com Email: See Website
- Type: Service-Disabled Veteran-Owned Small Business
- Capabilities: IT Systems Integrator and Strategic Sourcing Provider
- Technology Transfer: Infrastructure Support including Technical Support Services, Network & Connectivity Services, Infrastructure & Systems Management and Business Resiliency & Continuity Services. (NGA took over this contract from DISA's Mentor-Protégé Program)
- Benefits to NGA: A vendor more effective and efficient at delivering NGA focused solutions.
- Federal Clients: US Navy, Defense Logistics Agency, US Air Force, US Army, Dept of Labor, Dept of Treasury, Dept of Health and Human Services and Dept of Energy

- Status: Active

Northrop Grumman / MicroTechnologies

- MicroTechnologies (MicroTech) is headquartered in Vienna, VA
- CAGE Code: 3TSJ0 Website: www.microtech.net Email: See Website
- Type: Small Disadvantage Business, Service Disabled Veteran-Owned (8A, exp 06/10/2014)
- Capabilities: Technology Solutions, Systems Integration, High Definition Video Communications Design, Installation and Implementation, and Specializing in Government Computing Environments
- Technology Transfer: Visualization, Tasking Processing Exploitation and Dissemination (TPED), and Horizontal Integration. (NGA took over this contract from DISA's Mentor-Protégé Program)
- Benefits to NGA: Development activities to enhance MicroTech's Multi-class S switching solution that isolates classified and unclassified networks and is DISA-approved for secure simultaneous switching on both IP and ISDN networks.
- Federal Clients: Social Security Administration, General Services Administration, Dept of Agriculture, Federal Aviation Administration, Defense Information Systems Agency, Missile Defense Agency, Dept of Veterans Affairs, US Army, US Navy, US Air Force, and US Coast Guard
- Status: Graduated on 04/18/2012

CSC / OakTree Solutions, Inc.

- Oaktree Solutions, Inc (OakTree) is headquartered in Reston, VA
- CAGE Code: 1SZQ2 Website: www.oaktreesolutions.com Email: See Website
- Type: Small Disadvantaged Business, 8A
- Capabilities: Business Intelligence, Enterprise Management, Cyber Security and Human Capital
- Technology Transfer: Expansion of OakTree Navigator to enable compatibility with BMC Remedy. (NGA took over this contract from DISA's Mentor-Protégé Program)
- Benefits to NGA: Expansion of OakTree Solutions' product to work with BMC Remedy and accrediting the Oaktree Solutions' product for operation on DOD and IC networks will reduce cost and timelines.
- Federal Clients: Dept of Defense, Dept of Health and Human Services, Dept of Justice, General Services Administration, Dept of Treasury and Defense Information Systems Agency.
- Status: Active

2009 MENTOR-PROTÉGÉ AGREEMENTS

CTSC, LLC / Stargates, Inc.

- Stargates, Inc. is headquartered in Arlington, VA
- CAGE Code: 1JVA7 Website: www.stargates.com Email: See Website
- Type: Woman-Owned Small Business
- Capabilities: System Engineering Services, C41/Information Technology Services, Facilities & Installation Management Engineering Services and Process Management and Analysis
- Technology Transfer: GIS Training including understanding GIS requirements, ESRI software and current information technology services needed in the NGA environment.
- Benefits to NGA: Access to a proven, results oriented small business with significant levels of experience and DOD clearances.
- Federal Clients: Naval Sea Systems Command, Space and Naval Warfare Systems Command, Dept of Homeland Security and Customs and Border Protection.
- Status: Graduated on 09/28/2012

HP / Anacapa Micro Products, Inc.

- Anacapa Micro Products, Inc. (Anacapa) is headquartered in Ventura, CA
- CAGE Code: 0TXG2 Website: www.anacapamicro.com Email: See Website
- Type: HUBZone Certified Small Business
- Capabilities: IT Hardware and Software Fulfillment, A/V Equipment and Solutions, Integrated Logistics Support, eCatalogs for Products Fulfillments, Secure IT Solutions and System Integration, HP Enterprise Servers and Storage, Sourcing of HardtoLocate Items (“Weird Ware”); GREEN IT and Flexibility.
- Technology Transfer: Knowledge on data storage, virtualization and enterprise servers. Strategies for product development, marketing, and commercialization for Small Business Innovative Research (SBIR) contracts. Making the secure eCommerce solution compliant with Common Criteria certification requirements and available for use by DOD customers in support of the Warfighter.
- Benefits to NGA: Support for multifaceted technology needs and long-term strategic goals including advancing research and development of leading-edge technology.
- Federal Clients: Dept of Homeland Security, Dept of Energy, Dept of State, US Air Force, US Navy, National Security Agency, Dept of the Interior, Social Security Administration, Defense Information Systems Agency, US Army, US Marine Corps, National Counterterrorism Center and NASA
- Status: Active

IBM / Foxhole Technology

- Foxhole Technology is headquartered in Fairfax, VA
- CAGE Code: 4PAQ6 Website: www.foxholetechnology.com Email: See Webpage
- Type: Service-Disabled Veteran-Owned Small Business
- Capabilities: Information Technology Governance, Program Management, Agile Life-Cycle Management, NETOPS (Network Operations) Integration and Management, Net-Enabled Training and Mentoring, and Value Added Reseller of Products and Services.
- Technology Transfer: Development of an engineering paradigm for specifying the Federated Development and Certification Ecosystem (FDCE) Benefits to NGA:

Implement and refine the NGA FDCE. Enhancement and improvement of technological and organizational gaps via CMMI level 3 Appraisal, Smart Service Oriented Architecture, CISSP Security Training & Certifications, Model-Driven System Development and Business Intelligence and Innovation.

- Federal Clients: Dept of Agriculture, US Marine Corps, US Air Force, US Army, US Navy, Defense Information Systems Agency, Office of the Secretary of Defense and Federal Aviation Administration.
- Status: Active

HP / Global Resource Solutions, Inc.

- Global Resource Solutions, Inc (GRS) is headquartered in Tumwater, WA
- CAGE Code: 48H78 Website: www.grsco.com Email: See Website
- Type: Small Disadvantaged Business, Service Disabled Veteran-Owned, Minority-Owned (8A certified)
- Capabilities: Intelligence support operations, Mission and Operational Support, Strategic Planning and Policy Development, Knowledge Management and Technology, HR and Admin Support Operations.
- Technology Transfer: Knowledge on data storage, virtualization and enterprise servers. Strategies for product development, marketing, and commercialization for Small Business Innovative Research (SBIR) contracts.
- Benefits to NGA: The technical and infrastructure enhancements accomplished under this agreement will mature GRS' hardware and eCommerce solutions into products viable for use across the DOD and IC domain.
- Federal Clients: Executive Office of the President, Federal Aviation Administration, Internal Revenue Service, Dept of Defense, Defense Intelligence Agency and US Army.
- Status: Active

Raytheon / HBMG, Inc.

- HBMG, Inc. (HBMG) is headquartered in Austin, TX
- CAGE Code: 3J1S6 Website: www.hbmginc.com Email: See Website
- Type: Small Disadvantaged Business (8A, exp 02/03/2014)
- Capabilities: Strategic Development, Technology Planning and Forecasting, Software Development, Records Management, Network Physical and Logical Security, Data Center Operations & Management, Network Design, Telecom Network Installation.
- Technology Transfer: Information Systems Development, Network Operations, Records Management and Technology Management.
- Benefits to NGA: HBMG's unique experience, knowledge base and skill set will improve DOD's ability to exploit innovation.
- Federal Clients: Dept of Defense, NASA, Central Intelligence Agency, Central Intelligence Agency, National Security Agency and Dept of Energy
- Status: Graduated on 09/28/2012

2008 MENTOR-PROTÉGÉ AGREEMENTS

HP / Vision System Technology, Inc.

- Vision System Technology, Inc (VSTI) is headquartered in Ellicott City, MD
- CAGE Code: 1CVE4 Website: www.vsticorp.com Email: info@vsticorp.com
- Type: (8A, expired March 2009) Merged with SAS, the leader in Business Analytics on 07/16/2010
- Capabilities: Advanced Solutions Lab, Software Engineering, Systems Engineering, and Technology Consulting.
- Technology Transfer: Strategies for product development, marketing, and commercialization for Small Business Innovative Research (SBIR) contracts. Technical and infrastructure enhancement, specifically VSTI training and certification through use of EDS' internal subject matter experts and external resources such as Historically Black College or University.
- Benefits to NGA: Commercialized Real-Time, Analytics and Dissemination software platform to provide the warfighter as well as decision-makers with the capability to detect, analyze and discover actionable intelligence.
- Federal Clients: National Security Agency, Defense Intelligence Agency, Central Intelligence Agency, US Navy, US Air Force and the Dept of Health and Human Services.
- Status: Agreement no longer active due to change in VSTI small business status in Dec 2010

HP / V-Tech Solutions
